

Case Study

St Leonard's Field, St Andrews, Phase 1

Client: Ventrolla Scotland

Main Contractor: Robertson Homes Ltd

Scope of the Project

Conversion of former school into luxury apartments.

Ventrolla Scotland carried out on site renovation and up grading of more than 130 case and sash windows

Services Provided

Sashworks Ltd manufactured pairs of 6 over 6 and 6 over 9 double glazed sashes to match the originals.

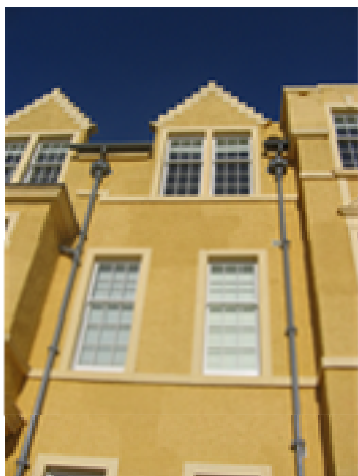

Profiles were as shown in Double Glazing Data Sheet using Duplex glazing bar system.

Key Benefits

Improved energy saving and comfort levels whilst retaining the traditional appearance of the building.

"u value" of glazing to "Part J" of Scottish Building Regulations

Retaining and repairing existing cases provided cost savings, minimised disruption to the building and reduced time on site.
